What [User](#) likes about Good Bread Bakery:

This hidden Galilean rough gem deserves a visit. The unique bakery surprised us with original creations. Not a huge selection. Very small but you must try the salty pastry called 'Tulum ' (I probably spell it won 't, so check my pictures). If the seating arrangements (outside) were more inviting, there would be a relative sum of five stars.

The very friendly service add to the rate of a theoretical 5 starts. [read more](#).
